

Shredder

[Rules]

- * Divide each empty cell into two, three or four thin rectangles with drawing lines vertically or horizontally.
- * Numbers shows how many divided rectangles touch on the cells.
- * The sign ● between cells shows that the direction of lines in these cells are same, and the sign ✕ shows they are different.

[Example]

		7		4		
	●		●			
6			10			8
		4			7	✕
				●		
7			9			5
	✕					
	5			9		

[1]

5		5		3	
	●				
	6		6		10
7		10		8	✕
		●		✕	
	7		5		6
	✕				
5		7		10	
		●		●	
	4		5		4

[2]

4		6		7	
	✕				
	8		9		5
4		6	●	8	
	8		5		6
	✕				●
5		7		10	
	6		5		5

[3]

	8		6		8	
	✕			✕		
5		6		9		3
	7		6		10	
		●	●		✕	
7		9		11		7
	6		7		5	
		●				
5		7		6		5
				✕		
	7		11		9	

[4]
Hard

	8		5		7	
			●			
4		8		7		7
	●					
	6		7		9	
					✕	
5		7		8		6
				✕		
	7		6		7	
6		6		8		5
		✕				●
	6		8		8
